

**We're saving a seat for you.**

Excitement for returning to 200 Forest Avenue is mounting. Much progress is being made with the renovations. For starters, seating will be changed from a fixed-pattern to one with greater flexibility to conform with the various ways we learn and worship. The sanctuary will allow in more daylight and will accommodate more people comfortably – to literally congregate.

The Kadima Campaign is also progressing at a steady pace...but it still needs your help. We're entering the final phase of fundraising scheduled to close in mid-April of this year. Time is running out to accomplish our goal of 100% congregant participation.

So why not take a seat at the table with others who have given so generously to the Kadima campaign? Many Kadima donors are spreading out their gifts over three to five years to lessen the financial burden. Please consider pledging today.
