

Kadima Digest #8

Spring: The season of renewal and rebirth.

Just as the tulips, crocuses, and daffodils awaken from their winter slumber and spring forth from the ground, a fresh Community Synagogue or Rye is blossoming in front of our eyes. And just as the spring rains are necessary for nature to bloom, your participation is needed to help CSR grow to its full potential.

CSR is like our community garden, and the more we tend to it, nurture it, and care for it the more bountiful it will be for us all. The Kadima Together campaign has been a tremendous success, we have achieved 90% of our \$6.2 million goal, but we are not done yet.

Please renew your commitment to CSR with a contribution today, and if you are one of the many members who has already made a generous pledge, we thank you and ask you to consider adding an additional installment – after all, there can never be too many flowers.
